Background

Brett Vandepol is a Manager with MNP's Consulting group in Toronto. Drawing on more than 4 years of consulting experience, Brett helps clients understand the financial impacts of decisions to their organization through the development of financial models and data analysis. Brett has also developed and teaches a course on financial model development.

Service Line

Brett has extensive knowledge and experience in the areas of financial modelling, data analysis, and financial policy development.

Industry Experience

With deep knowledge and experience in the public-sector Brett develops practical solutions and delivers results for his clients. His cross-industry expertise includes utilities, energy and cannabis.

Prior to starting his consulting career, he worked with SaskPower developing hydro-electricity projects and monitoring energy trading activities.
